CANCER:

What You Need to Know

Have you or a loved one had to deal with a diagnosis of cancer?

Experts have answers for many of your questions at this free program.

Program Overview:

Cancer is a word that strikes fear in the hearts of every individual and family. But, with knowledge comes strength and the ability to deal with a disease that virtually every family has or will confront at some point in their lives. At this meeting, every person can learn about healthy lifestyle choices to reduce the risks of cancer, get recommendations for screening to catch cancer early when it is most easily treated, receive advice on how to best deal with a cancer diagnosis, and information on places to go for further help. Your specific questions will also be addressed by a panel of cancer specialists. This program includes a continental breakfast, exhibits with 1-on-1 discussions with cancer support groups, and a Question & Answer session with the speakers.
